

NEW ELECTRICITY CONTRACT

WME are pleased to inform customers that we have made an award for our new OJEU compliant Flexible Electricity Framework, which commences in April 2020 for a 4-year period.

The thorough process included soft market testing across the industry and resulted in 7 tenders in total being received. All responses were scrutinised and marked transparently by WME in addition to an independent third-party energy organisation.

We are pleased to announce that the winner of the tender exercise was Total Gas and Power (TGP), who are our current Electricity supplier, having been awarded the last contract which commenced in April 2016.

The exercise was run in line with Public Contract Regulations and extends WME's relationship with TGP who are also our Flexible Gas Framework supplier until March 2022.

TGP are one of the largest Industrial and Commercial suppliers in the UK and have considerable experience within the public sector market space.

We look forward to continuing to work closely with them to deliver a high quality, cost effective energy service to all of our customers.
